My dear Mr. Wood:

I found out that those Roman coins you sold me are all the same. Could you please send me in exchange the Franklin cent and Nova Caesarea penny that you showed us. If you remember rightly I was in that party with Mr. Weiman. If you think those Roman coins are worth more than the cents could you please send me

some other coins?

Yours faithfully
Peter Ker

Dear Mr. Sykes:

Please excuse the delay in acknowledging receipt of the Roman coins. I have been away for a couple of days.

Under separate cover I am mailing to you the New Jersey and the Fugio cents, together with the rupee of the British East India Company and the George II shilling, as these equal in value the eight Romans you returned.

Very truly yours,

Curator
